SELECTED CASE STUDIES

LUCIANA — PREMIUM FASHION E-COMMERCE WITH AI TRY-ON

Live: shop-luciana.co

Problem: Shoppers couldn't gauge how premium garments would look or feel on their body without an in-person try-on.
Approach: As Lead Designer, directed the design of an AI-powered virtual try-on feature within a clean, elevated e-commerce UI.

Outcome: The try-on experience landed as a playful, gamified interaction that drew positive user feedback.

ANSARR — TWO-SIDED RESEARCH MARKETPLACE

Live: ansarr.com

Problem: Researchers needed a reliable way to launch studies and get accurate, timely feedback from respondents.

Approach: As Lead Designer, designed the waitlist landing experience for launch and is currently leading design of the researcher and respondent-facing screens.

Outcome: Live waitlist page onboarding early users ahead of the full platform launch.

In progress — researcher and respondent screens currently in design.

PRAISETIVAL — WORSHIP & EVENTS PLATFORM

Live: praisetivalireland.ie

Approach: As Lead Designer, delivered a clean, content-forward website UI covering event registration, livestream access, sponsorship, and the ministers' lineup.

SHARENEST — ACCOMMODATION MATCHMAKING PLATFORM

Problem: Matching users with compatible home-sharing options lacked clarity and efficiency.

Approach: Conducted interviews, synthesized insights, mapped journeys, designed flows, and prototyped interactions.

Outcome: Delivered an intuitive mobile experience that improved task clarity and match confidence.

TEEL — RESTAURANT MERCHANT PAYMENT EXPERIENCE

Live: teel.ie

Problem: Merchants lacked visibility into transaction statuses and settlement timelines.

Approach: Designed dashboards and interaction patterns emphasizing hierarchy and reconciliation workflows.

Outcome: Reduced ambiguity around settlements and improved task execution for merchant users.

SKY CAPITAL — MOBILE FINANCE APPLICATION

Problem: Users found financial data overwhelming and difficult to interpret.

Approach: Designed clearer information hierarchy, visual data patterns, and improved navigation.

Outcome: Increased engagement and reduced confusion around financial statements.
